Strategic Sales Operations

Stop Reacting. Start Scaling Your Sales Operations.

You no longer need to worry about lost inquiries or delayed orders. AVEEROS provides a "forward-looking" cockpit that ensures your sales pipeline is always moving.

Sales Order Management

You benefit from defined approval workflows, ensuring every order is validated against stock levels and credit policies before commitment.

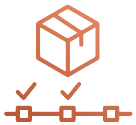

Inquiry Management

You can capture and track every lead from the first touchpoint, ensuring no revenue opportunity is ever lost in transition.

Customer Profile Management

You gain a centralized digital repository for all client data, credit limits and historical interactions.

Order Tracking Reports

You receive real-time notifications and granular visibility into every order’s status from "Inquiry" to "Dispatched".

SALES & DISTRIBUTION

Precision Dispatch & Logistics

The Gatekeeper of Customer Satisfaction and Delivery Excellence.

When an order is ready, the system takes over to ensure delivery accuracy and speed.

Dispatch Scheduling

You gain the power to visualize your logistics capacity and schedule deliveries based on priority deadlines.

Dispatch & Delivery Note Management

You generate professional, system-synced delivery notes that ensure faster posting to finance and audit-ready full traceability.

Finished Goods Return Notes

Maintain structured control over unexpected returns. Easily manage returns with automated stock adjustments and linked credit memos.

AVEEROS
TECHNOLOGY FOR YOUR BUSINESS

Billing & Integrated Sales Accounting

Know Your True Profitability.

Sales is about margins. AVEEROS ensures you know the profitability of every SKU and every customer in real-time.

Sales Invoice Management

You can automatically convert deliveries into invoices, eliminating manual entry and reducing operational risk.

Sales Day Book

Track sales trends by production batch, customer, product, date range, region and warehouse location.

Customer-wise Sales & Cost of Sales

By linking directly with AVEEROS Financials, you instantly see the "Cost of Sales" vs. Revenue, giving management full visibility and control.

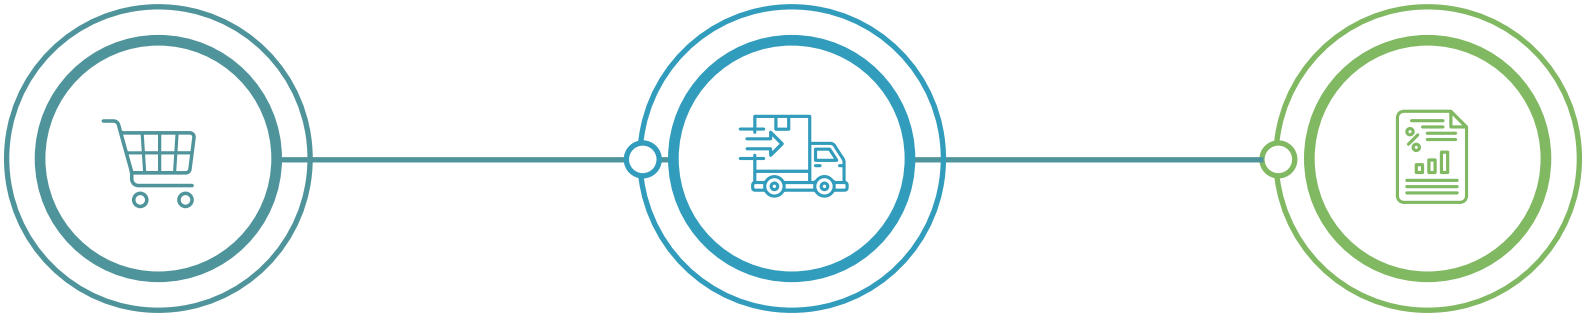

Automated AR Invoice Management

You strengthen cash flow with automated posting to the General Ledger and real-time AR aging alerts.
